

OMEGA Ω TECH

**CABLE
ASSEMBLIES**

RV-K VS H07RN

A system is only as strong as it's weakest connection.

Rely on Omegatech's handmade, individually tested cable assemblies constructed from lightweight, robust components that have proven themselves through the harshest conditions the road can throw at them. If that's not enough, Omegatech offers a 2 year workmanship warranty on all manufactured products.

KEY FEATURES

- Ω **Custom Labeling:**
Omegatech can add you company logo, bar code or colour coding system at no additional cost.
- Ω **Individual Serial Number:**
Each cable assembly is individually serialised for easy inventory and stock control and internal quality control purposes.
- Ω **Hand Assembled:**
Each cable assembly is created, by hand, in Omegatech's production facility to your exacting specifications.
- Ω **Testing:**
All Omegatech cable assemblies are tested to our strict internal quality assurance standards.
- Ω **Quality Control:**
All Omegatech cable assemblies are thoroughly tested in a multi-stage process, to ensure you receive the highest quality product that meets our highest quality standards.

We find solutions to problems. All of our products are born out of industry requirements and feedback. Got a problem, talk to us today. If we don't have a solution, we will make one!

DESCRIPTION

The OmegaTech cable range is designed for fixed or mobile applications where power distribution is required. OmegaTech offers a variety of custom configurations to suit individual needs.

KEY FEATURES

- Ω 30% lighter and 60% more flexible than traditional H07RN rubber
- Ω Same, if not improved, current carrying ability
- Ω Low Voltage 0.6/1kV
- Ω Cross-linked polyethylene (XLPE) Insulation
- Ω Chemical & Oil resistant
- Ω UV Resistant
- Ω Water Resistant
- Ω Suitable for Open Air, Buried or In Conduit Installation Conditions
- Ω Maximum Service Temperature: 90°C
- Ω Minimum service temperature: -40°C
- Ω Maximum short-circuit temperature: 250°C (max 5sec)
- Ω Full Quality Control with component Serial Number tracking

COMPLIANCE

RV-K PowerFlex Cables comply with

- Ω IEC 60502-1:2021 — Power Cables with Extruded Insulation and Their Accessories
- Ω IEC 60228:2003 — Conductors of Insulated Cable
- Ω IEC 60332-1-3:2004 — Flame Non-Propagation
- Ω CE, SEC, Bureau Veritas, AENOR, SASO, RoHS, KEMA KEUR
